Subject: State approval of Final MAP, Revision 10-change pages,received 9/6/05

Hi Michael and Jeff:

This e-mail serves as approval of the change pages to Revision 10 (Management Action Plan, May 2005). The requested change pages adequately address my 8/4/05 email comments on Chapter 3 and Appendix E-7. We have no additional comments and consider the Management Action Plan as a final document. As we understand, all DTSC issues have been addressed and they consider the Management Action Plan as a final document also.

Please let us know if you need a State letter to close the loop. Otherwise, this can serve as final approval of the subject document.

Thanks,
Carol Kolb
